# System Requirements

- Pentium 1 Gigahertz (GHz) processor or faster
- At least 1GB of RAM
- At least 2GB of available space on the hard disk
- USB 2.0/3.0

**software only supports the following operating systems:**

- Microsoft Windows Vista
- Microsoft Windows 7
- Microsoft Windows 8
- Microsoft Windows 10

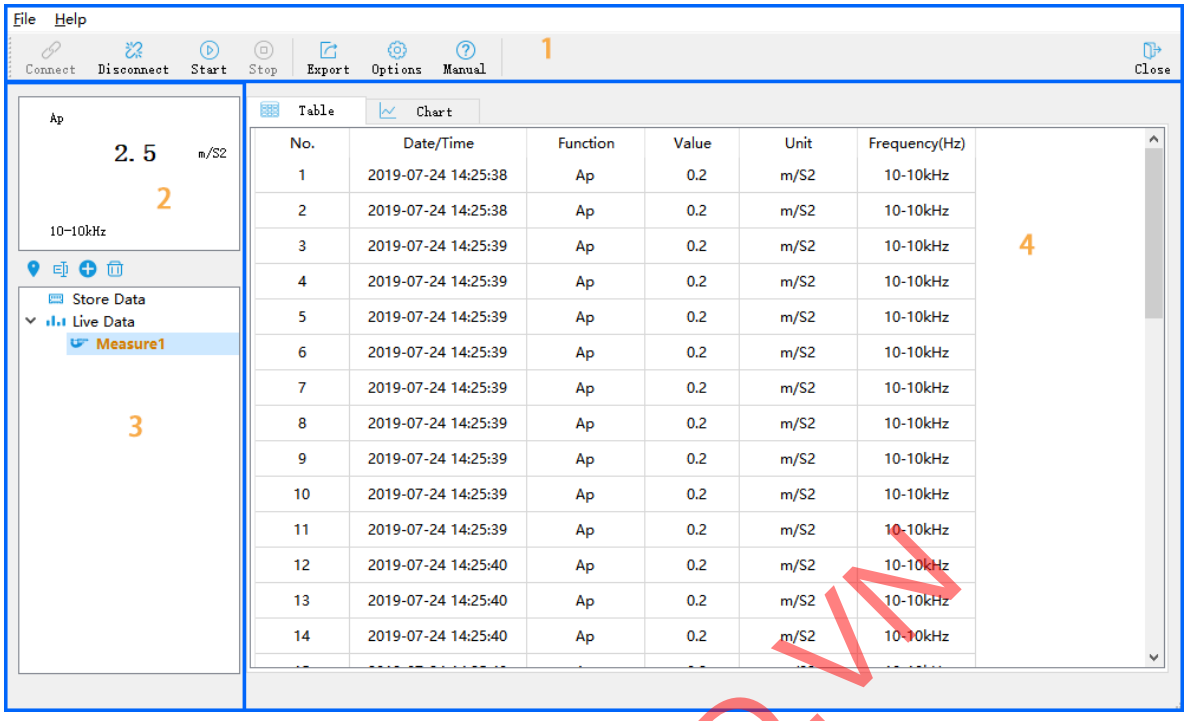
If your Windows does not contain the corresponding service pack version, please perform a Windows update first.

# Installing the Software

1. Insert the installation CD-ROM into your computer
2. The menu will be opened automatically (if installation doesn't start immediately, double-click Setup.exe in your CD-ROM directory).

# Using the Software

### 1. Interface and basic functions



| Area | Description |
|---|---|
| 1 | Menu and toolbar |
| 2 | Shows the live-data from the DMM |
| 3 | Data items，contain live-data and store-data |
| 4 | Data details, contain a table and a chart |

### 2. Get live-data

Make sure the meter and computer are connected via a USB cable

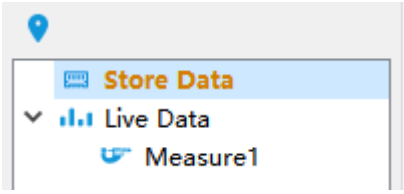
1. Click the 

and the software will attempt to connect to the meter
2. Click the 

and the software will get data from the meter
3. Live-data will be displayed in area 2
4. Data details will be saved in the form of tables and charts.

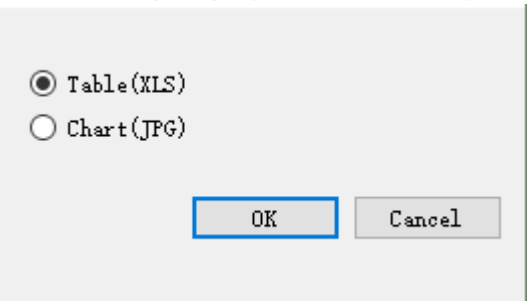
### 3. Get Store-Data

1. The stored-data will be saved in the "Store Data" item.



### 4. Export

1. Click the Export
2. Select the export project as needed. If you export to PDF, you can select a scene picture.



3. Input file name

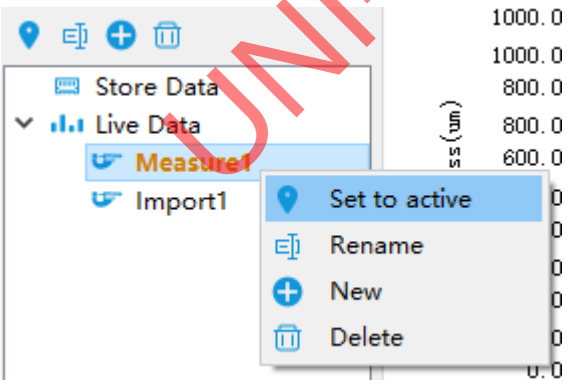
**5. Setup software**

- Click Options to open options dialog

  - "Sample Points": Set the number of sampling points. If "Infinite" is checked, the number is unlimited
  - "Sample rate": Set the sampling rate. If the set rate is greater than the actual rate, the actual rate will prevail; if set to 0, the actual rate will be sampled
  - "Skip repeat reading": If checked, the same sample value as the previous one is not recorded

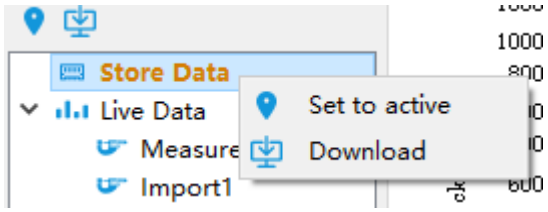
**6. Item operation**

- Live-data



| Name | Description |
|---|---|
| Set to active | Set the selected item to be activated, and the received data will be saved to this item. |
| Rename | Rename the selected item |
| New | Create a new item and set it to active |
| Delete | Delete the selected item |

- Store-data



| Name | Description |
| --- | --- |
| Set to active | Set the selected item to be activated |
| Download | Download store data |

**7. Get help**

- Click 

to open the "Software user manual"
